GREAT FACILITIES FOR THE PROMPT COMPLETION OF ORDERS AT THE INTELLIGENCELIOB PRINTING OFFICE

THE CHICAGO PLATFORM

Dissected by the Louisville Courier-Jour mal-What It Means,

Louisville Courfer Journal (Dem.); The duty now upon every Democrat is to examine the Chicago platform, as-

certain and determine whether it is a a Democratic document, and, therefore, whether he, as a Democrat, is called upon to help subject the country to it.

The first plank demands the "free and unlimited colonage of silver at the ratio of 16 to 1" without the co-operation of any other nation; demands that a silver dollar of 16 to 1 be made a full légal tender, equal to gold, for all debts, public and private; and demands such legislation as will prevent any one from contracting or refusing to receive a 16 to 1 silver dollar as equal to a gold dollar in value. The question arises whether or not this is a bare-faced declaration for repudiation to cheat all creditors to the extent of lifty cents on the dollar; a proposition to take this country from where it has always stood in the list of sound uponey countries, and place, it among the list of depreciated currency nations; or, is it Democratic doctrine?

the list of sound money countries, and place it among the list of depreciated currency nations; or, is it Democratic doctrine?

The second plank requires the United States to construe all obligations, payable in "coin" as payable in this depreciated silver or fifty cents on the dollar; although "coin" meant the gold standard of coin at the time the obligation was incurred. The question arises, is such national repudiation and dishoner Democratic doctrine?

The third plank in the platform forbids the issuing by the United States of any bonds in time of peace, even though it be to support the national credit and prevent the nation from stopping payment and going to protestation. The question arises, whether such a standard of national honor, and such treatment of those who have trusted the nation, are consistent with Democratic principles?

The next plank declares for flat paper money, to be issued by Congress alone; and destroys the solvent system of banking, recognized as best throughout the civilized world. The question is, whether such a revolution in the theory of finance, converting the government into a banking organization, for the issue of flat money, limited only by the amount that members of Congress may choose to issue, is consistent with the Democratic sound money doctrines of

amount that members of Congress may choose to issue, is consistent with the Democratic sound money doctrines of Jefferson, Jackson, Benton and Tilden? The next plank relates to the tariff. It takes off the limiting word "only" for revenue; contains no practical suggestion of antipathy to special privileges under the guise of tariff laws; and ends by relegating the tariff issue to the rear, as something not now important enough to be taken up. Is this the long fought-for Democratic doctrine of tariff reform, and a tariff for revenue only?

The next plank is a coarse and revolutionary attack upon the supreme court of the United States, because of its decision in the income tax case; a prposition to reverse the constitution of the United States and the wisdom of the United State

of the United States and the wisdom of its founders, by taking away the life term and independence of its judges, and render them subject to the varying whims and demands of popular elections. Is this Democracy?

The next plank threatens to hereafter "constitute" the supreme court of the United States "differently;" so as to cause it to reverse the income tax decision; such a change to be, of course, by packing the court with judges who have ready-made opinions, to suit this platform. Is this the Democracy which so denounced the packing of the supreme court bench by the Republicans in the "legal tender" cases, just after the war?

The next plank denounces the "waste

so denounced the packing of the supreme court bench by the Republicans in the "legal tender" cases, just after the war?

The next plank denounces the "waste of money" by Congress; but, in the same breath, the platform advocates unlimited millions on an unlimited "pension roll" and unlimited millions in river and harbor bills. Is this "frugality?" Is this the "simplicity and economy" which have been so advocated in every Democrate platform?

The next plank demands the pure anarchy of permitting lawless armed bodies of strikers and rioters (like Debs and others) to selice possession of and destroy property not their own, obstruct the transportation of the mails, the people and products of the country; accompanied, if necessary, by the destruction of life, and yet forbids the exercising by the executive or the courts of the only legal process and remedy which experience has shown is adequate to protect life and property from such unlawful jeopardy and destruction; the platform applying to such legal process to, prevent wrong the anarchist's epithet of "government by injunction." Is this consistent with the Democratic principle of preservation of personal rights, the protection of property, the enforcement of law, and the observance of constitutional limitations; or is it anarchy?

Every Democrat must decide for himself whether this is Democracy, or something which has besurped the name. He must determine whether this platform is "any kin" to him.

Orm is "any kin" to him.

A Chapter in Bryan's History.

Philadelphia Record, (Dem.), A little chapter in the political history of Nebraska will show what claim Mr. William Jennings Bryan has upon the Democratic party for its support. Last fall he undertook to lead the Silverite and Populist wing of the party in that state to the overthrow of the regular organization; but in the contest the sound monex Democrats defeated Bryan and his Populist faction by upward of 8,000 majority. The sound money Democrats defeated Bryan and his Populist faction by upward of 8,000 majority. The sound money Democrats on the Chicago convention. But what respect for the rights of Democrats could be expected from such an assemblage? The sound money Democrats on Nebraska were fung from their seats to make room for Bryan and his gang of Populists. As a Populist, not as ja Democrat, was Bryan nominated for the presidency, and to Populists only should he look for votes. No Democrat who has any respect for the principles of his party can stand on the Chicago pintform and vote for the Chicago pintform and vote for the Chicago pintform and vote for the Chicago moninee. The whole business, platform and candidate, is the work of a pseudo-Democracy having nothing in common with the Democratic party of Jefferson and Jackson, Benton and Tilden, Cleveland and Carlisle.

Congressman Cowen's Opinion.

Baltimore Telegram: Representative John K. Cowen, of Baltimore, (Dem.), in A Chapter in Bryan's History

Congression Coven's Opinion.

Baltimore Telegram: Representative John K. Cowen, of Baltimore, (Dem.), in an open letter makes the following attack on the platform adopted by the Chicago convention yesterday: "Free silver, flat money and free riot are the three prominent F's of the platform. It is the duty of every good Democrat to denounce the platform in season and out of season, and to vote neglinst the man who stands upon it. Altgedbam, Populism, Greenhedksm and Flatism are now Democracy, and no Democrat by his vote ought to sustain the ticket which represents such lems. I chall unless that the platform is a factorially and reserved the sustainingly vote for, William McKinley, although I am an out-and-out free-trader, and advise other Lemocrats to do the same. I do not believe it is wise to attempt a new third-party movement."

The German-American Voter.

The German-American Voter.

William Steinway, of New York City, president of the German-American Sound Money Irague and a Damocratic elector-at-large four years ago, said that he was going to vote for McKinley.

"It will be recalled," said he, "that on May 22 last a faceting of more than 1,000 German-American elizens was held at the Grand Central palace. All pledged themselves, irrespective of party affiliations, to consider the attempted debasement of the money standard as the principal issue of the campaign. They pledged themselves to vôte, irrespective of party tiles, for that candidate who should be nominated in the soundest money platform, and by like record and personnility offer the strongest guarantee of the maintenance of the present gold standard, A fund of \$12,000 was subscribed as a result of this meeting, and millions of, pamphlets in English and German, explaining in pamistakable language, the state of atmosphere in the net result of the mistakable language, the state of atmosphere in the net result of the visible language, the state of atmosphere in the present gold standard, a first part of the sounders of the maintenance of the present gold standard, a fund of \$12,000 was subscribed as a result of this meeting, and millions of, pamphlets in English and German, explaining in pamistakable language, the state of atmosphere in the sounders of the described by a decided bullish wheat market was turnsity of the disappointing world's visible figures and the net result of the

fairs, were distributed broadcast over fairs, were distributed broadcast over, the country. We made a poll of the 700 German newspapers printed in the United States that discuss politics, and found that only thirty-one advocated the free colonge of silver. This reflects the sentiment of the German-American population. Now, when it is considered that there are 1,200,000 German-Ameri-can voters in the United States, of whom perhaus two blacks are Danceste out. can voters in the United States, of whom-perhaps two-thirds are Democrats and the rest Republicans, it can readily be seen that in many of the castern and central states, such as Connecticut, New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois and Michigan, if an overwhelming majority of the Ger-man-Amyican Democrats yote the Re-publican national ticket, irrespective of what they may do locally or in state elections, they will turn the balance in favor of the Republican ticket.

THE LATEST SCIENTIFIC KNOWLEDGE ON FOOD AND DIGESTION,

The real cause of most of our diseases is simply an inability to digest food. This induces thinness, weakness, loss of thesh and fat, loss of vitality. wasting away

osa of flesh and vitality means constant liability to sickness. Wasting away is consumption. If getting thin is what alls you, there

If getting thin is what alis you, there is only one thing to do—get fat. The only way to do it is to take something which will help your stomach and stimulate it to do its work.

If you are thred out you do not like to move your legs or arms. If your stomach is tired it does not like to digest; it cannot do its work.

To eat, or even to get with relish does.

cannot do its work.

To eat, or even to cat with relish does not necessarily mean that one is being nourished. Secregiti, vitality and desh are the true indications.

Getting thin is a sign that you need the Shaker Digestive Cordial. You would not be getting thin if you could digest your food.

The Shaker Digestive Cordial not only contains artificially digested food but

ontains artificially digested food, but it will digest other foods in the stomach. A single 10 cent bottle will show whether or not it is going to meet the conditions of your case, and if so, its continued use may be depended on to effect a cure. All druggists keep it in stock.

FINANCE AND TRADE.

The Fratures of the Money and Stock Markets.

NEW YORK, July 13.-Money on call easy at 1462 per cent; last foan 2 per cent; closed at 2 per cent. Prime merceatile paper 465½ per cent. Prime mer-cantile paper 465½ per cent. Sterling exchange steady, with actual ousliness in bankers bills at \$48564 88½ for de-mand and \$18764 87½ for sixty daya, Posted rates \$488 and \$189. Commer-cial bills \$486½. Silver certificates 6554669e.

in bankers bills at \$4.8864.884, for demand and \$18.764.874, for skivy daya. Posted rates \$4.88 and \$1.89. Commercial bills \$4.8646. Silver certificates \$6.886696.

The speculative temper underwent a change to-day and the movement was in sharp contrast to the strength that had characterized the close of the preceding week. This was due to the exceeding of realizing orders and hammering by the bears, induced by the foreign exchanges, engagements of gold for export and disturbing rumors of the beginning of gold loarling. The volume of business was not large, but the dealings were fairly distributed. The course of prices was almost uninterrupiedly downward and the declines were material in a number of instances. The industrials were the objective points of attack. The initial prices were slightly higher under the insuence of a firm market for Americans in London. A reactionary invovement set in almost at the outset which was most pronounced in the industrials and grangers. The early selling movement soon abated and a steadler tone prevailed, but the market became almost stagnant on a moderate rally from the extreme low points. Shortly after 11, however, the bears redoubled their efforts against the industrials and succeeded in forcing down Leather preferred 23. The general list displayed sympathetic weakness. On the down grade an increase in activity was noted. The downward movement was continued after mid-day on the unfavorable rumors elsewhere referred to.

Another interval of duliness and comparative steadiness occurred at the low-level until the last hour, when renewed pressure against Sugar and averaging [47] per cent in Eugar and averaging [47] per cent in the more prominent raliroad stocks.

Railway bonds displayed an ensier tendency in sympathy with the reces

\$588,000. In government bonds, the new 4s were decidedly weak, reacting ½ per cent to 115½ on sales of \$33,000. The other issues, however, held steady.

Silver certificates were dull and eased off to 65½ on sales of \$25,000. The total sales of stocks to-day were 155,508 shares.

Evening Post's London financial ca-

A sharp spurt upwards in home rall.

A snarp spirt upwards in home rall-ways formed the only feature on the stock exchange to-day. Business in other markets was very stagnant. Settlements shows a fairly light ac-count and the average rate on Ameri-cans has not exceeded three per cent.
